Subject: special meeting

Good morning Doug,
It was good to have the opportunity to listen and speak to the racing complaints.Everyone remained calm in expressing their views.I appreciate Cathy relaying the support that has been received for the racetrack and that the Town has been considering the publics concerns and the business of racing and that it is a complex issue with no easy answers or it would have happened by now.
If a committee is formed to continue dialogue I would offer to take part.Thanks

Casey

Subject: update to water

Doug and Terry

Over the weekend we got the tank up to 28 feet of water and that's a good thing. We are running both pumps 24/7 at 1,050 gpm. That's 1.5 million gallon per day. They have ben running for 5 days that's 7.5 million gallons! Overnight the tank does get up to 31 feet of water in the tank and then back down between 26 to 28 feet in the tank during the day. So the good news is we have improved our fire protection with the tank as full as it is but the consumption has not tailed off and with the coming days being hotter and more humid we will have to see if a mandatory reduction in water is needed. I am going to send out one of the guys to read water meters this week and take that data and compare it to the sale of water of our master meters to make sure everything we are buying from the city is going through a water meter. We will also see who our big users are.

I would rather deal with a three day snow storm than deal with the stress of this water system.

July 3, 2020

FOR IMMEDIATE RELEASE
SUBJECT: VOLUNTARY WATER CONSERVATION

Town of Canandaigua request for residents of the Canandaigua Consolidated Water District to voluntarily conserve water

Hot dry weather for extended periods often creates additional demand on the Town of Canandaigua's Consolidated Water District when

residents begin watering their grass, washing their cars, and other door uses.

During these periods of excessive consumption beyond the capacity of the system the Town of Canandaigua monitors the situation closely and is now asking residents of the Canandaigua Consolidated Water District to voluntarily conserve and restrict water use based upon the local water system regulations found in the local water ordinances. During these excessive use times the Water Superintendent has the ability to issue water conservation restrictions.

The Water Superintendent for the Town of Canandaigua Jim Fletcher is requesting all residents that are in the Canandaigua Consolidated water district that are fed water from the Cramer road water tank (see attached map) begin to restrict the usage of water. This restriction will include the following.

1. Washing vehicles;
2. Watering lawns;
3. Watering gardens and flower gardens;
4. Any large consumption of water needed for any activity.

These restrictions are the first level of conservation water for the impacted water district in the Town of Canandaigua only. Additional restrictions may occur if stage one conservation does not meet the needs of the water system.

The purpose for this request to conserve water is not due to a lack of water but due to the pumps that provide water to the system are at capacity and can not provide more water to the system. The Town of Canandaigua is in the process of upgrading and replacing the impacted water system with a construction project in progress now that includes the construction of two new water tanks near Crammer Road, along with new water lines. The projected scheduled to be completed in 2021 at a cost of $ 7,570,000.00 will address the issue that is forcing the Water Superintendent to issue this request.

Hi, Samantha. I love the Town of Canandaigua beaches, and I am emailing for clarification.

The town website says that West Lake School House Park and Onanda park beaches are open, and to check the parks websites for details. However, I cannot find any website for either park.

Can you help me find the website(s), and/or share any details that I might need before visiting one of the parks?

Thank you very much!

Sincerely,
Julia

Subject: Grandview Park Sewer Petition

Doug and Jean,

The Petition does not comply with the requirements for a Petition under NYS Town Law 191 because it fails to:

1. Describe the boundaries of the proposed district in a manner sufficient to identify the lands included therein as in a deed of conveyance

2. Signatures are not acknowledged in the same manner as a deed or election petition

3. Does not state the maximum amount proposed to be expended therefor.

However, it does appear that they got a lot of signatures (the statutory requirement is 50% of the assessed value). It may be a good constituent-relations move to assist them in preparing a valid petition. Let me know if you would like to pursue this.

Thanks,

Chris

DOUGLAS FINCH, TOWN MANAGER

DATE: MAY 26, 2020

RE: SEWER LINE – GRANDVIEW PARK, TOWN OF CANANDAIGUA

Over the last 20 or so years, sanitary sewer has been discussed for the Grandview Park neighborhood, but to date, it has not come to fruition. In the 2016 Sewer Master Plan, the Town Board determined our neighborhood to be the number two priority project at an estimated cost of less than $250,000. Prior to being named as a priority project in the 2016 Sewer Master Plan, there was a feasibility study conducted in 2006 that placed a high priority for sanitary sewer service in our neighborhood based on the deteriorating conditions of the existing septic systems.

We currently have several properties in the Grandview Park neighborhood with septic issues that will need to be addressed. It is my belief, and affirmed by the resident signatures below, that property owners would prefer to connect to a designated sewer system instead of investing thousands of dollars into private leach beds or complete septic systems which might only be temporary until the sewer line is installed.

As a concerned resident of Grandview Park, I have visited our neighbors to see what property owners have an interest in having the sewer service extended to allow our properties safe and reliable waste treatment.

With the issues brought on by COVID 19, we know that the town is facing financial difficulties, but since the project would be paid for mostly by the district residents, we would like to bring to your attention that we are interested in moving this project forward sooner rather than later.

If Allan or I can provide any information or help in moving this project forward, please let us know.

Sincerely,

Re: Charter Communications – Upcoming Changes

Dear Municipal Official:

At Charter, locally known as Spectrum, we continue to enhance our services in order to offer more entertainment and communication choices, and to deliver the best value to our customers. We are committed to offering our customers with products and services we are sure they will enjoy.

Programming fees charged by TV networks we carry are the greatest single factor in higher cable prices, and continue to rise. Despite our best efforts to control these costs, this has resulted in a change in the rates we charge our customers.

Effective on or after July 5, 2020, customers are being noticed via bill message of the following monthly pricing changes, which will take effect on or after August 5, 2020. Customer promotional rates will not change until the end of the promotion period.

Services/Products/Equipment	Pricing Adjustment
Broadcast TV Surcharge	Will increase by $2.95. This reflects the costs incurred from local Broadcast TV Stations.
Spectrum TV Select	Will increase by $1.50.
Spectrum TV Silver	Will increase by $1.50.
Spectrum TV Gold	Will increase by $1.50.

If you have any questions about this change, please feel free to contact me at 585-340-8188 or via email at lauren.kelly@charter.com.

Sincerely,

Lauren E. Kelly

ONTARIO COUNTY AGRICULTURAL SOCIETY
"CULTIVATING THE NEXT GENERATION"

July 3, 2020

Town of Canandaigua Town Board,

In regards to stock car racing at the Ontario County Fairgrounds:

Stock car racing has been taking place at the Ontario County Fairgrounds as an allowable activity since the mid 1950's. In fact the track and the fairgrounds were established before any surrounding land was developed. Any property development or purchase decisions should have taken into consideration the current surrounding area, and that the property is located in the vicinity of this preexisting approved activity.

Stock car racing is an economic driver for many local businesses and employs up to 50 people. Many travel to the area most summer weekends, staying in area hotels and enjoying all that the Finger Lakes Region has to offer, restaurants, breweries, and the many areas attractions.

Current track promoter, and area businessman Paul Cole of Land of Legends Raceway, takes great pride in being community minded and community invested. He's been a strong supporter and advocate of many local organizations and groups. To date Land of Legends has donated $20,000+ to over 30 local organizations and groups. Mercy Flight, Shoot out for Soldiers, Rise up Therapeutic Horse, Happiness House, Wings for Cystic Fibrosis, Autism Awareness, The Spot, Disabled American Veterans, Care Net, Domestic Violence Consort just to name a few, as well as hosting Veteran from the VA Hospital who look forward to enjoying a night out at the races.

The Ontario County Agricultural Society has enjoyed a good working relationship with the Town of Canandaigua over the years and consider ourselves good neighbors. We can all acknowledge due to the sheltering in place mandates, ongoing day to day changes from the governor saying what is allowed to open and when, we all are experiencing a period in time of elevated emotions and anxiety. An increase in complaints in general may be attributed to the public's overall frustrations, as communications on many levels did not always timely make it to the public. Auto racing was one of the first recreational venues allowed to reopen, and would be the first to experience many questions, and concerns as well as creating frustrations from the public as they wonder and wait for their favorite recreational venues to open. Many might not of known local racing was allowed, and we are working on ways to increase communications, especially to our valued neighbors as we all adapt to the new normal.

Sincerely,
Casey Kunes, President
Ontario County Agricultural Society

Charter
COMMUNICATIONS

July 1, 2020

Re: Charter Communications – Upcoming Changes

Dear Municipal Official:

This letter will serve as notice that on or around August 1, 2020, Charter Communications ("Charter"), locally known as Spectrum, will launch Big Ten Network, channel 382, to Spectrum TV Sports Pack on the channel lineup serving your community.

On or around August 1, 2020, American Heroes Channel 140, Discovery Family Channel 266 and Science Channel 136, currently placed on SPP Tier 2 will be moved to SPP Tier 1 on the channel lineup serving your community.

On or around August 1, 2020, the Spectrum news feed currently located on channels 1, 10 and 200 in the Candor lineup will change from Spectrum News Central New York to Spectrum News Southern Tier. Spectrum News features news, weather, traffic, information and other original news programming.

To view a current Spectrum channel lineup visit www.spectrum.com/channels.

If you have any questions about this change, please feel free to contact me at 585-340-8188 or via email at lauren.kelly@charter.com.

Subject: FW: loud motorcycles and trucks speeding on street

Michele,

Thank you for your email about loud motorcycles and trucks speeding on Wells Curtice/Middle Cheshire Road/CR16.

The Town of Canandaigua works with the Ontario County Sheriff's department on what is called a enhanced law enforcement contract. We started doing this a couple years ago to help combat speeding and vehicle traffic infractions on Middle Cheshire Road, West Lake Road (CR16) and other town roads. The monthly report for the last couple years is available on our website through the agendas, and our reports if you would like to review the specifics in terms of the enforcement actions on Middle Cheshire Road.

Due to COVID-19 we have been forced to cut over $2M in expenses out of our budget for 2020. The enhanced law enforcement contract is one of those expenses that has been scaled back. The Ontario County Sheriff's dept still provides law enforcement services for Middle Cheshire Road and the area; however, our enhanced contract has had to be reduced since revenues are reduced, and expenditures had to be cut from all areas.

Regarding an adjustment of speed on Wells Curtice Road, if you would like to petition the Town Board to reduce the speed on Wells Curtice Road that is an option. If the Town Board agrees and chooses to adopt such a resolution in support, the Town Board would need to request what is called a TE-9 study from the NYS Department of Transportation. The NYS DOT would then make the decision whether or not to lower the speed, that is not a decision that is made by the Town of Canandaigua.

If you would like to make such a request petitioning the Town Board, please send it to Town Clerk Jean Chrisman at jchrisman@townofcanandaigua.org and we will place it on an upcoming Town Board meeting agenda for their consideration.

As always, please let me know if you have any questions. Thank you for reaching out.

Cc: Tom Gabruk <tomgabruk@yahoo.com>
Subject: Re: loud motorcycles and trucks speeding on street

Hi Chris,

Thanks for your help with this issue. We have another more pressing request. Since we moved to our home on Wells Curtice Rd near the intersection of Middle Cheshire, we have noticed an increasing number of very loud motorcycles and trucks going by every day, often speeding, and sometimes honking. They idle near our house then rev up again and roar up Middle Cheshire or toward W Lake Rd. They seem to have after market mufflers added to make them louder. Is there anything we can do? Tonight while relaxing over dinner, a truck went by that was so loud it rattled the walls and we thought it was a plane! Our house is set back but we can still hear the noise. This should be a quiet country road, not a major business or construction thoroughfare. This is causing quite a bit of stress for us as they use our street as a cut through to Middle Cheshire or West Lake Rd. We are asking if more patrols can be done to look for speeders or excessively loud mufflers, and if the speed limit could be reduced down from 45 to 40 mph as it is on other quiet streets such as Barnes Rd. We moved here for peace and quiet, and are beginning to think this was a very costly mistake.

Thank you,

Michele Rosenbaum and Tom Gabruk
5401 Wells Curtice Rd

Michele,

I am going to ask code enforcement to give you an update on the grass situation. They have been following up on this and are trying to get the situation addressed.

With regard to Onanda Beach, the beach has been closed up until now. We are reopening it now, and will begin to provide the daily raking or hosing off of the sidewalk that is done by park seasonal staff. During the COVID-19 situation, the executive orders from the Governor prohibited us from opening until now. The geese certainly do continue to come back regularly year after year. Our staff continues to cleanup the mess they leave daily once the beach area is open and we are able to have the staff resume operations which is just starting this weekend.

Hello Doug and Tina,

Please see the attached photos. There is a house on Wells Curtice Rd with very long grass. The house was for sale at one point but appears to be off the market now. Not sure who is taking care of it now but the grass definitely needs to be mowed. Onanda Beach has a large population of 8-10 Canada geese pairs with multiple offspring that are leaving large amounts of feces on the beach and walkways. This spreads disease and parasites and is not hygienic. We would like to know what can be done to address these problems.

Thank you.

As a nurse I was in shock at the number of people at the Land of Legends Speedway in Canandaigua, New York on Saturday June 27, 2020. I observed hundreds of people not social distancing and not wearing mask, clearly not complying with the governors COVID guidelines! These people are from ALL over New York State, and none of them were following the COVID guidelines. The track allowed this behavior knowing what the guidelines are, which to me is breaking the

law, and putting our region/community in great danger. Yes, our numbers are down, but they can go back up, look what is happening in the South and West of our Country. The entire pit area and surrounding area's were completely packed, it almost looked like a typical pre-covid summer race in Canandaigua. Now, I am concerned because the track Website states the following: "BIG BLOCK MODIFIEDS & SPORTSMAN SPECTACULAR SPECIAL!
JULY 2 @ 7:30 PM - 11:00 PM
Grandstands are OPEN for fans! $10 Adult General Admission, 16 and under free. Tickets are available at the gate only. Gate opens at 5:30
$40 Pit Admission Gate opens at 4pm
Pay per view available at https://landoflegendstv.com/" https:/. This will draw thousands of fans, young, and old to our area. The fans will come from all over New York, possibly Canada, and possibly from out of state since there is no way to track movement. There is No mention of any COVID guidelines in place, so basically there are saying, come one, come all, we are open for normal business, and we can do it pre-covid style. This is concerning to me, as a medical professional I would think that there would be guidelines in place, such as, social distancing requirement and a limit on the number of spectators allowed. Without special precautions and guidelines in place I fear that we will see spikes and possible surges in our area. The track should be easing into this process of reopening the gates to fans, and there should be guidelines in place. I think it is too risky not to air on the side of caution. Thank you for your time and understanding! I am just a concerned nurse looking out for my community.

Good morning,

My name is Doug Finch and I am the Town Manager for the Town of Canandaigua New York. We are home to the Land of Legends Race Track (dirt track). This year we have received many more complaints (more than normal) about noise levels, and dust and other similar concerns associated with the racing. Part of the reason for the complaints is likely the increased week night racing due to the COVID-19 situation vs. the traditional one night per week on Saturday evening.

I was wondering if you have any information that you might be able to share with us about how other local municipalities have worked with their local race tracks to figure out ways to accommodate both the track along with concerns by residents?

Follow Up Flag: Follow up
Flag Status: Flagged

Casey,

Thank you for your email. When you and I last spoke there was no meeting planned at that point. There are no mixed messages. As I told you on the phone we have been getting complaints, and board members are interested in hearing directly from those who would like to address them regarding the race track.

A special meeting was requested to hear from residents by the Town Board. Once the meeting was requested I immediately called Paul Cole to make sure he was available and so that he was informed. It is premature to say if any action would be taken or not, that is up to the Town Board. If the Town Board directs me to take action (if any) following the meeting then I will take whatever action is directed to me by the Town Board. As I have said to both you and Paul, a meeting with the Town Board is open to the public, there is no such thing as "just meeting with the board to discuss the matter".

This meeting will be a good opportunity for you to address the board as you have requested, along with anyone else who would like to do so regarding the race track. We may have one or two people, or many more it is hard to say since the meeting is open to the public. There are limitations on the number of people that will be admitted into the room per Governor Cuomo's Executive Orders. This will be a hybrid meeting both in person and by zoom.

Thank you for reaching out and your candor, I always appreciate working with you.

Good morning Doug and Town Board,

Doug,I continue to receive mixed messages.When we spoke last week regarding possible next steps relating to your June 17 email to the Town Board and officials your comment to me was that most likely there wouldn't be any significant action taken,no meetings were planned and the topic was not on any agenda.So I am disappointed that you have decided to schedule a public meeting just days after we discussed. I suggested and would have preferred to meet at least once with yourself and/or the board and Paul to discuss the complaints in detail before holding a public forum during a pandemic when emotions and frustrations in general are high.

Town Board,

Based on your feedback, we are scheduling a special Town Board meeting for Wednesday, July 8 at 6pm. The purpose of this meeting will be to listen to anyone who chooses to share comments or thoughts relative to the Canandaigua race track.

This meeting will be held at the Canandaigua Town Hall and will be limited to a total number of 45 people in person in the meeting room (50% of our posted occupancy of 90 for that room), with no more than 17 people in person standing in the foyer area (50% of our posted occupancy of 35 for that area). Additionally, we will provide zoom access for the meeting for anyone who wishes to participate via zoom.

Here is a link to the Zoom meeting: https://us02web.zoom.us/j/81502048630

Subject: Fire near Town Line Road
Attachments: fire.06292020fireworks.jpg

Town Board,

Just a quick update, special thank you to the City of Canandaigua Fire Department, and Fire Chief Frank Magnera.

Sunday afternoon (06/29/20) Chief Magner alerted me to a rather large brush fire was brought under control by the quick response of the City of Canandaigua FD, after being started apparently by fireworks. The area that was engulfed in flames (picture attached) was behind Genecco Produce near Town Line Road near Stablegate. With the grass being so dry fireworks certainly are a risk this year. I know even in my neighborhood I am seeing more and more people setting off fireworks (even last night) since everyone is home, and in particular with no large gatherings and displays this year. Please be cautious.

Thank you again City of Canandaigua FD, and Farmington/Manchester/Shortsville/Cheshire/Crystal Beach for your assistance.

Subject: RE: [EXTERNAL] RE: Canada geese in Onanda Park

Felicia,

Good morning. On Thursday June 25, I emailed Fish and Wildlife (fwfish8@dec.ny.gov) regarding the geese at Onanda Park and shared Michele's comments regarding relocation requesting assistance. To date I have not received a response.

As you might be aware Onanda Park (lakeside) is currently a DEC Fish and Wildlife property, owned by the NYS DEC and operated by the Town of Canandaigua. We have been working with Zach Odell and Web Pearsall typically regarding Onanda, so I am copying them on this email.

Your response to Michele asked if the swimming location is regularly subjected to water quality testing. Since the DEC owns the property at this point, I am uncertain if the DEC is doing regular testing or not. I have been working with Region 8 and we are in the process of transitioning Onanda Park to the Town of Canandaigua; however, at this time it is still owned by the DEC. The NYS DOH regularly tests the water at Onanda and checks for blue green algae. Would this be something that would qualify?

I guess my question to you is since this is a DEC fish and wildlife property is this something the DEC will take care of or do we need to apply for a permit with the DEC? I am just uncertain how this would work if we were to do something with the geese given the unusual situation of the DEC currently owning this property.

Sarah – for communication binder please.

Forwarding to other Town members on previous communications for their visibility. Please see Felicia Paradise of the DEC's response below. Seems like some good options to look into to help clean up our beach! Hope we can make a plan for action soon! Thanks!

Kind regards,

Michele

Be cautious! Message sent from external source.

Hi Michele,

My first question would be whether or not the swimming location is regularly subjected to water quality testing by a state, federal or local health agency? I would assume it is, but I ask because under the US Fish and Wildlife Service Federal Public Health Control Order, DEC is allowed to issue take permits if the swimming area has increased bacterial growth as a result of fecal contamination (see https://www.dec.ny.gov/docs/wildlife_pdf/nygoosepermitinfo.pdf). If this is not the case, a USFWS Depredation Permit would be necessary to take Canada geese. Both State and Federal permits authorize for the lethal removal of the animals, since relocation is generally ineffective as they often return to the same areas and can cause issues for other landowners.

The USDA-APHIS Wildlife Service can be contracted help municipalities discretely capture and euthanize problem animals once a permit is issued, and they can also assist Depredation Permit applicants. They can be reached at (518) 268-2290. A Nuisance Wildlife Control Operator could work under a permit to remove the geese as well. These can be found on our website at: https://www.dec.ny.gov/cfmx/extapps/sls_searches/index.cfm?p=live_nwco. Certainly let me

know how you would need to move forward (whether a Federal or State permit is necessary) so I can provide help accordingly.

Hi Felicia,

On an unrelated note, is it possible to capture and relocate a group of about 20 Canada geese at Canandaigua's Onanda Park on W Lake Rd. They are fouling the grass and walkways, and now that the beach is open it is becoming a real problem year after year. We were told that the geese are flightless in July due to molting and therefore easier to catch. This was done successfully a few years ago in Webster when they became a problem in another town park there. The town manager did email someone at the DEC recently, but I wanted to see if I could perhaps get the wheels moving a bit more on this and contact you directly since we spoke about the bear already.

Thank you again!

Kind regards,

Michele

Good morning,

I am used to the indifference of "The Dope From The Slope" (I'm a New Yorker). However, in a week I haven't heard a word about my concerns. Guess they want tourists to see the feces, garbage, people openly ignoring swimming regulations, dogs running off their leashes, etc.
I know you are not responsible for addressing these issues, so please forward to someone who is. Thank you.

When our lease expires, we are out of here.

Subject: EVERYWHERE

The feces is everywhere. From parking near the entrance to K. Park, in the grass, on the walking path to the other side of the Lake, etc.

You MUST walk with your head down or you will step on "crap". The garbage is along the shore, on the grass, in the grills!

I have photos that I will share with The Messenger. Stevie Wonder could find what I'm talking about.

The landscaping seems to be the only work going on. Dogs are not on a leash---so they are free to "go" where they want. Take a ride to Seneca Lake State Park---compare.

Michele,

Thank you for your email and sharing your concern about the goose droppings at Onanda Park. The geese certainly do cause a mess at Onanda. Now that our beach is open, the park open, including park rangers we are cleaning the park daily. Our maintenance staff cleans the sidewalk each morning going to the pier near the kayak launch, and our park rangers are cleaning it at least once per shift resulting in a cleaning of three times per day. I have been to the park almost everyday this week and know that the clean up is happening, but I have also personally seen more than 20 geese walking around the park leaving a mess. I will reach out to the DEC to se if they have any suggestions/solutions. Thank you for bringing this possible solution to our attention.

Still a large amount of goose droppings all over the grass and driveway in Onanda Park- unsightly and a health hazard. We watched some kayakers have to walk through piles of it while getting out of the water last week. They are flightless in July due to molting and more easily caught and relocated by the local DEC. They did this in Webster where we used to live and it helped alot. when will clean up start? Thank you.

Subject: RE: The airport

We received an email back from the airport.

"If any deer are noted inside fence, we simply locate them, open a nearby gate, and kindly ask them to leave… with minimal persuasion. So to be perfectly clear, there is no hunting of any type allowed on airport property. Regarding the nuisance permit, we do not possess any. It's my understanding the DEC doesn't even issue them to airports anymore, and I have made no applications. Our practices include only non-lethal means for eradicating nuisance wildlife.
Given all that, this makes your complaint a very serious matter. It implies someone was trespassing on airport property with firearms and I don't know how many other laws were potentially broken based on your description of the event. I will say that I'm a bit dubious of this report without having any real details. Nonetheless, I would highly recommend the "concerned resident" file a report of the incident with the Sheriff's department. I assume this it occurred fairly recently? I would certainly appreciate opportunity to follow up on it myself if they wishes contact me directly. It's not good for anyone to have these kinds of rumors (or accusations) out there and it should be dealt with swiftly."

Do you wish the Town to follow up with the complainant and get more detailed information?

Thanks,
Chris

Subject: The airport

I have a concern about the airport and the constant shooting that is going on back there. I was told buy some men that they have licenses to go back there and kill the deer that are entering into the airport as to keep the runway clear. They were having a grand time laughing about how the deer were running terrified into the fence while they were shooting at them. Why are we not fencing off the opening to the airport if this is that important?? it seems they are getting into the entrance on Brickyard Rd. why is there not a gate to block this? They have fences everywhere else but there. It is not fair to the animals since we are in their territory in the woods. I have seen mothers and babies in there. It's not right that these men are going in there and randomly just killing these deer and having themselves a good laugh. It is not even hunting season. There's an easy solution, why is it not being taken care of? I'm also wondering why we see campers back there? I spoke with somebody at the airport and they said no one should be shooting back there on the airport or camping back there. Attached will be a picture of the camper that was parked inside the airport at the dead end of Thomas road coming from the Brickyard side.

Subject: RE: The airport

I have heard that the airport has special licenses to eliminate birds/animals on the property that could be a life safety – collision hazard to the airplanes on landing/take-off.
But.. there are no openings in the fence to the airport… due to security requirements.
Sometimes gates are left open to the Sheriff's Building and the hanger off brickyard.

I will contact Robert Mincer.. ask him about the hunters.. and if they are permitted.. inform him that the people he has granted permission to eliminate the threat may need a lesson in discretion.

The camper at the end of the Thomas Road loop is not on the Airport property. It is located at 5680 Thomas Road – Privately owned by Patsy Depew.

FYI – please know the majority of the airport is operated by the County, and we have no governance over the County or County employees or subcontracts that the County may or may not have. Code Enforcement has reached out to the airport manager.

We do permit hangers at the airport that are privately owned, and not the property of Ontario County; however, that is our limitation relating to the airport. I know it is confusing. Recently plans were approved for a new entrance off of Thomas Road for the new terminal where construction will be starting.

Perhaps we can ask Bob to come give the Town Board an update relating to the airport.

Bob,

We received a complaint from a concerned resident near the airport.
They were witnessed to hunters shooting within the airport fenced compound and laughing / carrying-on about how the deer had no where to go and were running into the fencing while being shot at.

We understand that there may be permits to eliminate animals within the fenced compound to protect the airplanes from collisions. ?
If this is the case.. the employees that are completing this task may need to be a little more discreet and respectful of the adjacent property owners.

The complaint also mention the presence of a camper at the NorthWest end of the runway. The camper is not on Airport property..
We will be addressing the camper, and if people are residing within.

Thanks,
Chris

Town Board,
(cc: Race Track Promoter Paul Cole, the Chair of the Ontario County Fair Board, Dept Heads, and Code Enforcement)
SAM – please add this to the Town Board's communication binder from me

Every year about this time we get complaints about the race track on County Road 10. Attached are some emails from last year with the original resolution passed by the Town Board on March 1, 1976 that authorizes the racing with an 11pm curfew. Additionally a specific muffler was required with no open straight pipes for noise.

Please know that the 11pm curfew is still in effect since 1976. We did have one race that violated the 11pm last summer and we immediately dealt with that issue with the Promoter. The rest of the races concluded by 11pm thanks to the Promoter for making sure these races finished by the curfew. Additionally, please know that we also still make sure the promoter requires the muffler system with no open straight pipes per the original requirements.

I regularly receive complaints about the race track, mostly noise sometimes other issues like parking, dust, health concerns, etc. This year we have received many complaints about social distancing and the COVID-19 situation that is to be enforced by the local municipality. Last June 2019 we held a Town Board meeting during which time residents voiced concern, the promoter attended; however, no follow up action ever took place regarding any next steps as we never heard from the resident again after that meeting.

On Tuesday, June 9, 2020; I received about 7 complaints while having dinner out at Casa de Pasta (and yes we could hear it on the patio there) about the noise, it was a humid night which seems like makes the sound travel more. After finishing dinner we drove to the race track about 9:10pm and saw the racing had concluded for the evening well before the 11pm curfew.

I bring this to your attention to see if you want to have additional discussion about this matter. Many of our codes and regulations are updated routinely; however, this particular issue has been left to uphold the 1976 resolution with no changes since then.

Are you ok with things the way they are?
Do you want me to handle complaints in some other manner?
Is an 11pm curfew on a week night something that needs to be adjusted or re-considered?
Do some sort of noise modifications or regulations need to be considered?
Do you want to limit or eliminate the authorization for the racing?
Is the racing in compliance with the applicable zoning, or special uses approved for the Fair?
Should a special use be issued for racing so that it is regularly reviewed by the planning board as a zoning and land use regulation; rather than the 1976 local town board resolution?
Should we open up a meeting or special meeting to allow residents and interested stake holders to participate? (Could this be a zoom meeting to accommodate a rather large crowd including race track supporters and participants – if we hold a special meeting) ?

Mr. Hill,

It was great to speak with you today, thank you for taking the time. Below is the email exchange that I received today and forwarded to all of the Town Board.
Per our phone conversation, attached are the documents that I mentioned; and I also forwarded these to Kevin Reynolds a short time ago.

Please plan to attend the Town Board meeting on June 17th at 6:00pm at the Town Hall.

Subject: Re: Re: Canandaigua track hours of operation

Hello and I'm just writing to touch base as to the outcome of the complaints against the canandaigua land of legends race track. We've spoken a couple times but there wasn't any information really conveyed to me besides a explanation about a 1970's agreement with the town and the track. I'm very interested in finding out if there has been any up to date rules or regulations and restrictions pertaining to the track and it's hours of operation and also would like to know what the legal decibel level is for their hours of operation as I'm assuming that they've gotten some kind of variance. Also I'd like to know what I can do about recommending formally about sound barriers being erected on the outside of the track to minimize the horrendous noise that has PLAGUED my families Saturday summer evenings for over 15 years personally. As I stated to begin with, I'm not going to take a backseat to any of these requests and will pursue any and all avenues to get an up to date town/track restrictions, and if there are none, what we can do to get there, and about the implementation of sound barriers. I've spoken to many many community members about this topic as I also run one of the social media outlets that is only about our community as well and people are hearing this thunderous weekly noise as far away as Farmington by the NYS thruway and if they can hear the noise, you can only imagine what my Saturday evenings and many others on my road are like. Thank you again for getting back to me with constructive information at your earliest convenience. I appreciate that and have a great day, James Hill 4561 Ontario Street Ext.

> > Hello Mr. Hill,
> > I am still looking into this matter and will be forwarding your concerns to our ordinance committee. What I have found, and you already may be aware of this, is that there was an agreement made between the town and the track many years ago. As I recall offhand it may have been in the 70s and it required the track to cease operations by 11:00 p.m. I have been told by our Code Enforcement officer that quite a few people contacted him with regard to the noise on Saturday night. I have cc'd Eric Cooper from the Town on this email so he can look into this further. I apologize for not getting back to you sooner. I have some family emergencies going on but I will continue to work on this.

I appreciate all of your help in this matter. I am still very interested in the hours of operation, local variances that they have at the track and why they were allowed to operate, very loudly after 12:15am last Saturday. I won't be letting this go so I do look forward to receiving the aforementioned information about the canandaigua land of legends Motorsports park and such. Thank you again, James Hill

ONTARIO COUNTY FAIR SOCIETY

"THE FAIR OF THE FINGER LAKES REGION"

Show Grounds 1½ Miles East of Canandaigua, on the Town Line Road

April 22, 1982

Supervisior Mr. James Holden
Town of Canandaigua
Main Street
Canandaigua, New York 14424

Dear Supervisior Holden;

The Ontario County Fair Society would like to inform you and the members of the Town Board of the various events which have been tentatively scheduled for the fairgrounds.

1. The Ontario County 4-H clubs will use the grounds for their horse shows, polo practice, animal clinics and other related club activities.

2. Mr. Harris Wilcox of Bergen, New York, will conduct monthly cattle sales at the fairgrounds as he has for over twenty years.

3. The Fair Society will hold its annual fair during the week of July 12 thru 17.

4. Mr, Glenn Donnelly will promote stock car racing on Saturday evenings. These will commence May 1st. and continue through September 11th. The exception to the Saturday evening program will be one mid-week race to be held Tuesday July 20th. This is the same event as held in previous years. Mr. Donnelly has been reminded the 11 o'clock curfew is still in effect for the 1982 season. Enclosed is a schedule of stock car events for 1982.

Mr. Donnelly has mandated in his rule book for 1982 the following concerning noise and mufflers:
"Rule 14, Engine Specifications - All cars must run an approved exhaust system with sufficient sound depressing characteristics. No zoomie or grass burner headers. If a 100 decible limit is not achieved at 50 feet those offenders will have to install a DIRT mandatory muffler (not to exceed $35.00 a pair)."

The 100 decible limit is 10 decibles lower than that which was mandatory for the year 1981.

The officers and members of the Board of Directors of the Fair Society would like to thank the Town of Canandaigua for past cooperation and we look forward to working together in the future.

Sincerely,

John W. Schrader Jr.

John W. Schrader, Jr.
Secretary
Ontario County Fair

any negative comments relative to this proposal nor any negative comments from residents present at either hearing.

After much discussion, Councilman Prull closed the public hearing at 1:05 P.M.

Sarah R. VanNoy
Town Clerk

March 1, 1976

A public hearing was called to order at 7:30 P.M. at City Hall, Canandaigua, New York to hear all persons interested in the proposed Town of Canandaigua Local Law No. 1 known as a Local Law Exempting from taxation by the Town of Canandaigua of a portion of the assessed valuation of real property owned by persons 65 years of age or over which local law would exempt from taxation 50% of the assessed valuation of certain persons over the age of 65 years, provided the income of the owners of said property does not exceed $6500. per year and the owners meet other qualifications established by the local law.

Councilman Prull commented that the state limit is $6500.

No one spoke for or against the matter.

Supervisor Harkness declared the hearing closed at 7:35 P.M.

Sarah R. VanNoy
Town Clerk

March 1, 1976

Minutes of the regular meeting of the Town Board, Town of Canandaigua, held on March 1, 1976 at the Town Hall commencing at 7:35 P.M.

PRESENT:	Andrew Harkness	Supervisor
	Warren E. Hook	Town Justice
	Oren Sangster	Town Justice
	David W. Prull	Councilman
	Florence Nott	Councilwowan
	Edward Brahm	Zoning Officer
	James H. Bell	Highway Supt.
	Everett Schrader	Water Supt.
	Richard O'Brien	Constable
	Richard Brocklebank	Attorney

Others Present: Emma Case, Glenn Case, Mrs. Ruth Johnson, Mr. & Mrs. Johnson, Thomas Ryan, John Schrader, Jerry DePew, Leonard Stoddard; City Manager T. Hamilton Kennedy, and Alderman James Peer

Justice Sangster stated that he had received numerous complaints concerning the excessive noise during stock car races which sometimes last until midnight and 1:00 A.M. Mr. Stoddard, vice-president of the county fair society said the only time the races run late is when they are held up due to weather conditions or when the ambulance is gone to the hospital. The races are not permitted to run until the ambulance has returned. He also stated that these extra activities help cover their expenditures, especially now that State Aid has been cut. Mr. John Schrader, secretary said the fair society would have no objections to a strict midnight curfew. Tom Ryan, Chapin Road, commented that he felt an 11:00 P.M. curfew would be fair and reasonable. He complained about the noise, especially the modified class. The fair society will send the Town Board a complete list of their activities scheduled for 1976. Supervisor Harkness said the Town Board will take this under advisement.

to obtain the necessary permits.

Motion made by Justice Hook, seconded by Councilwoman Nott that Supervisor Harkness be authorized to sign the agreement after the necessary corrections are made. (EXHIBIT Y).

Motion made by Councilman Prull, seconded by Justice Sangster that the Highway Superintendent be authorized to bid for ice control sand and pipe. Carried.

Highway Superintendent Bell presented his annual report which is on file.

The following resolution was offered by Justice Sangster, seconded by Councilman Prull:

RESOLVED, that a curfew of 11:00 P.M. be established for all outdoor events held at the Ontario County Fair Grounds with the exception of fair week.

The above resolution was unanimously adopted.

After audit of the bills by members of the Town Board, Abstract No 4; in the amount of $7805.95 from General Fund; $13,081.93 from Highway Fund; $141.47 from Water Department; $1689.41 from Pumping Station; $123.90 from Chapin Road Water District; $360.47 from Middle Cheshire Lake Road Water District; $688.70 from Cooley Road Water District; $1785.75 from Middle Cheshire Water District; $634.56 from Cheshire Water District and $10,141.68 from Building Reserve Dund; Justice Hook moved the bills be paid. Seconded by Councilman Prull. Carried.

The meeting was adjourned at 10:55 P.M.

Sarah R. VanNoy
Town Clerk

March 15, 1976

Minutes of the regular meeting of the Town Board, Town of Canandaigua held on March 15, 1976 at the Town Hall commencing at 7:30 P.M.

PRESENT:	Andrew B. Harkness	Supervisor
	Warren E. Hook	Town Justice
	Oren Sangster	Town Justice
	David W. Prull	Councilman
	Florence Nott	Councilwoman
	Edward Brahm	Zoning Officer
	Fred German	Zoning Officer
	Everett Schrader	Water Superintendent

OTHERS PRESENT: Cora Lee Sullivan, Robert McKerr, James Holden.

Motion made by Justice Hook, seconded by Councilman Prull that Rule 8 be suspended. Carried.

Motion made by Justice Sangster, seconded by Justice Hook that the Highway Superintendent 1975 Annual Report be accepted and filed. Carried.

Correspondence was read as follows:

1. Letter from the Canandaigua Safety Council stating that the amount of traffic and number of homes on Buffalo Street Extension was not sufficient to warrant a lower speed limit. The Town Board on the request of a Town resident had requested the Safety Council to make a study of this.

2. Supervisor Harkness read a letter to the board he had written to the New York State Department of Environmental Conservation relative to the draft of a local ordinance for Freshwater Wetlands. Mr. Harkness said he had referred this proposal to the Town Environmental Commission for review.

WILLIAM F. McGOWAN
CHAIRMAN

LILLIAN C. BODA

Board of Supervisors
Ontario County

ANDREW B. HARKNESS
Supervisor, Town of Canandaigua
4803 West Lake Road
Canandaigua, New York 14424

PHONE: Res.: 315 - 394 - 0821
Bus.: 315 - 394 - 1120

March 5, 1976

Mr. George A. Payne, President
Ontario County Fair Assoc.
West Main Street
Shortsville, New York 14548

Dear George:

As you probably have heard it was the determination of the Town Board to restrict evening activities at the fairgrounds to 11:00 P.M. excepting the period that the Ontario County Fair is in progress. The following resolution was adopted at the regular Town Board meeting held on March 1, 1976:

> RESOLVED, that a curfew of 11:00 P.M. be established for all outdoor events held at the Ontario County Fair Grounds with the exception of fair week.

The Board is fully appreciative of the fine work of your association in behalf of the County and its towns. It also understands your problems. However, in this instance, it is felt that the imposition of the curfew does not present an insurmountable obstacle to your organization and with particular reference to the auto racing program, affords the residents within hearing range a reasonable hour to expect relief from the noise.

I sincerely hope that you can continue to schedule remunerating events within this limitation.

Sincerely yours,

Andrew B. Harkness
Supervisor

Attn: Mr. Glenn Donnelly, President

Re: Noise Control - Auto Racing

Glenn, thank you again for your continued cooperation while I learn more about the DIRT Organization, the operation of auto racing, the available muffler hardware and procedures for appropriate noise controls for this activity.

Your invitation for me to attend the DIRT Annual Meeting in Syracuse last Thursday allowed me to discuss the muffler hardware program directly with "Super-Trapp" personnel, and also to discuss this potential new requirement with both promoters and drivers.

I was particularily encouraged to see that both the promoters and the drivers are now receptive to the implementation of a manditory muffler regulation. With the investigation I have conducted over the past several weeks, I am now satisfied personally that the "Super-Trapp" muffler hardware will not only answer the community's concern for noise control, but it may well also provide you with a wider potential audience for your racing program.

I understand that the DIRT group will be voting on the muffler regulation at your December 8th meeting. Again, I strongly urge you to adopt this regulation for your entire organization. This will avoid possible problems if Canandaigua and Accord were the only locations requiring muffler equipment and it will therefore minimize the possibility of new first time drivers at Canandaigua being denied the right to race.

I have enclosed a copy of the Town of Canandaigua "TENTATIVE GUIDELINES" for auto racing noise control which have been reviewed and endorsed by the Canandaigua Town Board. Additional refinements and revisions are expected. I provided a similar copy to Andy, during my visit to Syracuse last Thursday. Please review these guidelines and advise me of any of your comments so that they may be considered for subsequent revisions.

Thanks again for your continued help.

Dear Jim:

This letter is to advise you of the outcome of the DIRT organizational meeting held yesterday, December 8, 1985. The vote on the Super Trapp Muffler was passed unanimously by the modified division and will be in effect for the start of the 1986 season.

Regarding the 11 PM curfew, I have discussed this matter with the drivers and employees and we will abide by the new time closing.

Jim, I am certain this will quiet all of your noise complaints concerning the auto racing. If you have any further questions, please don't hesitate to contact me at the above number.

Yours for better racing,
DIRT, Inc.

Subject: Race track noise

Hi Ron ,
We where at some friends home in the city this evening. Outside socially distance when the roar of the race track halted our evening. It is a week night . It seems that more and more residents are complaining of the noise. We live on county rd 32 and the noise when we returned this evening was incredible.
Not sure who is responsible for keeping the race track in compliance.
I guess I would appreciate you forwarding on to me the rules that they are supposed to adhere to.
So far this year we have heard the track operating after 11pm this year.
Is the track a venue that is allowed to be open in phase 3?

Looking forward to your response

Subject: RE: Re: Re: Canandaigua track hours of operation

Hello everyone,
I would like to make a few points regarding Doug's email.Doug,I did try to call and discuss with you but was unable to reach you this afternoon.I will have a busy day in the fields tomorrow so I did not want to wait any longer to respond.

Doug as you stated we discussed the noise and hours of the track last year.Paul addressed the one late night last year and has continued to complete racing on time,and this year quite often much earlier.The required mufflers are used as well.We discussed that racing is an approved activity.(and I also know that the new housing developers on County Rd 10 had been notified by the Town that racing is an allowed activity before any construction started).Soon after last years Town Board meeting I contacted you to see what are the next steps we should be considering.You told me that you and the board were content to leave the issue alone and that the resident was provided a time to voice his concerns and would leave it at that.Paul Cole,the race track promoter received a similar response when he inquired.It appeared we had and have had the support of the Town as long as the curfews and mufflers were adhered to.

So I was quite surprised by the statements made in your email and questions you posed.You mention complaints and the COVID concerns.Did you relay to the citizens that the activities at the race track have been approved by the state

and proper precautions are in place?The Governors office is encouraging the public to call in activities they see,perhaps this is contributing to the number of calls you are getting?

There was some discussion last year about codes and should they be reviewed.I believe the thoughts were if some sort of noise ordinance was developed what would be the unintended consequences on other activities in the Town like for CMAC.What about boating?There are some loud boats on the water that I know bother some residences.Again the thoughts were to leave alone and not open a pandora's box.

Some of the questions posed are concerning in light of the conversations we had last year.The question posed about limiting or eliminating racing is particularly alarming.Paul has made additional investment in the facility over the off season,something he would have backed off on if not for the supportive comments we both received last year. Any jeopardy to racing activities jeopardizes the fair as well.

Anyone please feel free to call or contact me.Thanks

Casey Kunes,pres.
Ontario County Fair

Subject: FW: Re: Re: Canandaigua track hours of operation

Town Board,
(cc: Race Track Promoter Paul Cole, the Chair of the Ontario County Fair Board, Dept Heads, and Code Enforcement)
SAM – please add this to the Town Board's communication binder from me

Every year about this time we get complaints about the race track on County Road 10. Attached are some emails from last year with the original resolution passed by the Town Board on March 1, 1976 that authorizes the racing with an 11pm curfew. Additionally a specific muffler was required with no open straight pipes for noise.

Please know that the 11pm curfew is still in effect since 1976. We did have one race that violated the 11pm last summer and we immediately dealt with that issue with the Promoter. The rest of the races concluded by 11pm thanks to the Promoter for making sure these races finished by the curfew. Additionally, please know that we also still make sure the promoter requires the muffler system with no open straight pipes per the original requirements.

I regularly receive complaints about the race track, mostly noise sometimes other issues like parking, dust, health concerns, etc. This year we have received many complaints about social distancing and the COVID-19 situation that is to be enforced by the local municipality. Last June 2019 we held a Town Board meeting during which time residents voiced

concern, the promoter attended; however, no follow up action ever took place regarding any next steps as we never heard from the resident again after that meeting.

On Tuesday, June 9, 2020; I received about 7 complaints while having dinner out at Casa de Pasta (and yes we could hear it on the patio there) about the noise, it was a humid night which seems like makes the sound travel more. After finishing dinner we drove to the race track about 9:10pm and saw the racing had concluded for the evening well before the 11pm curfew.

I bring this to your attention to see if you want to have additional discussion about this matter. Many of our codes and regulations are updated routinely; however, this particular issue has been left to uphold the 1976 resolution with no changes since then.

Are you ok with things the way they are?
Do you want me to handle complaints in some other manner?
Is an 11pm curfew on a week night something that needs to be adjusted or re-considered?
Do some sort of noise modifications or regulations need to be considered?
Do you want to limit or eliminate the authorization for the racing?
Is the racing in compliance with the applicable zoning, or special uses approved for the Fair?
Should a special use be issued for racing so that it is regularly reviewed by the planning board as a zoning and land use regulation; rather than the 1976 local town board resolution?
Should we open up a meeting or special meeting to allow residents and interested stake holders to participate? (Could this be a zoom meeting to accommodate a rather large crowd including race track supporters and participants – if we hold a special meeting) ?

Mr. Hill,

It was great to speak with you today, thank you for taking the time. Below is the email exchange that I received today and forwarded to all of the Town Board.
Per our phone conversation, attached are the documents that I mentioned; and I also forwarded these to Kevin Reynolds a short time ago.

Please plan to attend the Town Board meeting on June 17th at 6:00pm at the Town Hall.

Hello Doug,
Please review so you are familiar with this correspondence and would you also forward this to Chris Nadler? I think we need to look into the legal parameters for what options we have as a Town to address both the concerns of the residents and the business owners rights and responsibilities.
Thanks,
Cathy

Subject: Re: Re: Canandaigua track hours of operation

Hello and I'm just writing to touch base as to the outcome of the complaints against the canandaigua land of legends race track. We've spoken a couple times but there wasn't any information really conveyed to me besides a explanation about a 1970's agreement with the town and the track. I'm very interested in finding out if there has been any up to date rules or regulations and restrictions pertaining to the track and it's hours of operation and also would like to know what the legal decibel level is for their hours of operation as I'm assuming that they've gotten some kind of variance. Also I'd like to know what I can do about recommending formally about sound barriers being erected on the outside of the track to minimize the horrendous noise that has PLAGUED my families Saturday summer evenings for over 15 years personally. As I stated to begin with, I'm not going to take a backseat to any of these requests and will pursue any and all avenues to get an up to date town/track restrictions, and if there are none, what we can do to get there, and about the implementation of sound barriers. I've spoken to many many community members about this topic as I also run one of the social media outlets that is only about our community as well and people are hearing this thunderous weekly noise as far away as Farmington by the NYS thruway and if they can hear the noise, you can only imagine what my Saturday evenings and many others on my road are like. Thank you again for getting back to me with constructive information at your earliest convenience. I appreciate that and have a great day, James Hill 4561 Ontario Street Ext.

Hello Mr. Hill,
I am still looking into this matter and will be forwarding your concerns to our ordinance committee. What I have found, and you already may be aware of this, is that there was an agreement made between the town and the track many years ago. As I recall offhand it may have been in the 70s and it required the track to cease operations by 11:00 p.m. I have been told by our Code Enforcement officer that quite a few people contacted him with regard to the noise on Saturday night. I have cc'd Eric Cooper from the Town on this email so he can look into this further. I apologize for not getting back to you sooner. I have some family emergencies going on but I will continue to work on this.
I will keep you informed as well.
Regards,
Cathy

So it's been 3 days since our last email correspondence and I'm touching base to see if you have any information for me as a taxpaying member of this community. I appreciate all of your help in this matter. I am still very interested in the hours of operation, local variances that they have at the track and why they were allowed to operate, very loudly after 12:15am last Saturday. I won't be letting this go so I do look forward to receiving the aforementioned information about the canandaigua land of legends Motorsports park and such. Thank you again, James Hill

Hello Mr.Goodwin,

I am writing in response to my frustration with the loud races that take place at the county fairgrounds. Tonight, Wednesday, 6/17/20, races began at 7:00. In the past most races have only been on Saturday evenings, lasting way into the night, (11:00pm).
While this track occurs on Town property, the residents of the City of Canandaigua, are always are burdened with the noise from this event. How is this allowed to happen?

I have written to the town code enforcement officer in the past with no response. Is there any recourse as a resident of the city?

I hope you will be able to offer a solution to this terribly offensive noise that I am thoroughly sick of enduring.

You may call me at 585-752-8468

TB – FYI, the Wiia money for the water project ($3M) is on hold right now (not canceled) as we have suspected due to the COVID-19 situation and the ongoing orders from the Governor.

Our original plan was to tap into some of the Wiia money as quickly as possible; however, given the situation we will need to proceed with Bond Anticipation Notes (BANS) for the project as it moves forward to be able to pay the contractors. With a little less than $1M in unassigned fund balance for Canandaigua Consolidated and our current cash, along with anticipated cash flow projections for the project I know that we will need about $1.5M in August from a BAN vs. the original plan of $1M with another $1.5M in October, and likely another BAN in January time frame until we can start to tap into some of the Wiia money later this year.

All is good, we will move forward with a BAN and have a resolution on your July meeting; however, we are beginning the process now for a BAN closing on July 30th. Please let me know if you have any questions.

Doug –

I just spoke with Jenn Sunkes at EFC who brought me up to speed on where things stand at EFC's end.

I believe the "Missing Items Letter" has come out from EFC and they may be still waiting on a few things back from MRB Group (Greg please confirm?).

Once those can get all in to EFC, then EFC "Could" start moving toward a Closing on the WIIA Grant money.

HOWEVER – EFC is on "hold" right now with proceeding on WIIA funds at the State level.

Therefore they cannot proceed toward the Closing at this time.

Everyone can continue to submit to EFC the items they need and then when NYS gives EFC the "green light", hopefully EFC can move quickly to the Closing on the WIIA Grant funds for us.

Thank you – Chuck

Subject: Re: Squaw Island

Good afternoon,

I want to first thank you for taking the time for responding to my concerns. On your recommendation I decided to contact the DEC. I have been contacted by Natural Resource Supervisor Mark Gooding who is interested in supporting our efforts in changing the name of Squaw Island. Gooding explained to me the process would likely involve the city or town having to place a application to the USGS. Gooding has also expressed interest in communicating with all the involved parties, including the town of canandaigua in this effort. I have included a copy of the email sent to me by Mr. Gooding who has also expressed his support for its change.

Mr. Randolph,
I received your email requesting DEC assistance regarding a name change for Squaw Island. DEC supports a name change. However, I believe a request from the City would be the most appropriate and the DEC could provide a letter of support or other support as needed.

The first step is to request the change to the USGS – please use the following links for more information. https://www.usgs.gov/core-science-systems/ngp/board-on-geographic-names/how-do-i and https://www.usgs.gov/faqs/how-can-i-propose-a-name-change-a-natural-feature?qt-news_science_products=0#qt-news_science_products . The state process for name change request review is outlined at http://www.nysm.nysed.gov/research-collections/geographic-names
I have also informed DEC Executive, DEC Region 8 Regional Director and DEC Indian Nations Affairs Coordinator of your request so they are aware of the issue. Please contact me so we can discuss the matter and move together towards an acceptable resolution with all of the involved parties.
Regards - Mark

Subject: Squaw Island

Good Afternoon Members of Canandaigua Council,

I am contacting you in regards to Squaw Island Protected Area located in Canandaigua, NY. As you may know regarding current events consuming "Black Lives Matter" have pushed forth a lot of cities, towns and even states to review a lot of their personal hold on things such as monuments, street names and so on.

It has become a bit of a discussion regarding the name place of "Squaw Island". As you may be aware the term "Squaw" is a derogatory term that is meant to cast a Native American woman in a negative light. In 2015, the Seneca nation petitioned the city of Buffalo to change the name of their own Squaw Island to what is now known as Unity Island.

Seneca Nation President Maurice John Sr., and Chief G. Ava Hill of the Six Nations President of the Grand River wrote:

"The continued use and acceptance of the word 'Squaw' only perpetuates the idea that indigenous women and culture can be deemed as impure, sexually perverse barbaric and dirty ... Please do eliminate the slur 'Squaw' from your community."

I am contacting a multiple of individuals I hope will be able to assist in this matter. Including multiple Native American organizations and nations, the NYSECON who take care of the island, and also local and state officials.

I know after long discussions that my community has a united understanding in changing the horrible misunderstood history of this Island. We have in a conservative effort dubbed the idea of replacing the name as "Treaty Island" in respect to the 1794 treaty in Canandaigua, one of the longest running treaties between the United States and the Native American people.

I do not know your personal position on the matter, nor do I know if the Town of Canandaigua actually has the power to change this. I have contacted a multiple of Native American organizations, the New York State Department of Environmental Conservation, and now I am contacting you in seeking out further information regarding this matter. I think together we can make Canandaigua a more welcoming and greater city than it already is.

Good Afternoon Pricilla,
We have indeed moved forward. Maybe that was not clear in my prior communications and I apologize for that. The owners of the billboards instituted a lawsuit after we moved forward. The matter is currently in litigation as I did explain earlier. We cannot do anything until the Court decides the issues raised or a settlement can be reached. The basic issue in the lawsuit is a claim that compensation by amortization would be inadequate and, in fact, the method of using amortization was determined by NY law to be insufficient to compensate the property owners.

Additionally, we are always working with professional planners and also work together with the City of Canandaigua and other areas in the Finger Lakes to improve all of the things you noted in your email. We have committees that work on these very things as well. If you would like to be involved in any of these committees I would encourage you to do so. Obviously, our priorities have had to change in the last 2-3 months to deal with the COVID-19 crisis itself and the concomitant expected shortfalls in revenues. As we move forward we are beginning to be able to focus on all the other things you mention.
I hope this answers some of your concerns. If you have any other questions please let me know.
Cathy

Good Morning Cathy,

Last fall my husband and I had the good fortune to spend some time in Vancouver B.C. Included in the program which we attended, were two sessions with a City of Vancouver Planner. The first session consisted of photos/commentary followed by a question and answer portion. The second was a walking tour in which we had opportunity to see many of the ideas we had previously seen in action. These included everything from signage, drainage. landscaping, parks, sidewalks, building placement/renovation and traffic.

The group was in awe and very favorably impressed. When asked how we accomplish some of these outcomes for our towns/cities, the reply was simple. Three things were necessary to move forward to a better planned, attractive and workable place to live: **1. An educated populace, 2. political will and 3. qualified, professional planners.**

Now that the City of Canandaigua, is finally moving forward with improvements to the lakefront portion of the city, **it is unfortunate that your administration has chosen to not move forward with the removal of the off-site commercial speech signs in our Town**. Well planned, attractive cities/ towns promote prosperity.

Best,
Priscills Herbik

Good Morning Cathy,

Thank you so much for the reply.

Hopefully a settlement can be reached. Is there the political will to do so?

After reading Terry Fennelly's comment,as included in the minutes of the February Town Board meeting, ! was confused as to the Town's position in this matter. Can you please clarify his and the Town Boards position?

Be well.
Priscilla

Hello Pricilla,
I am sorry I haven't been able to get back to you sooner. We are still in litigation with the billboard owners. Our insurance carrier retained counsel to deal with the lawsuit. As I mentioned previously, their lawsuit alleges that the law which provided for compensation by amortization is inadequate to compensate them and they based that upon New York State caselaw. We are still in negotiations for a settlement if one can be reached. As you can imagine, there no new news on this front as we deal with the current issues facing all of us.
Stay well,
Cathy

Hello Cathy,

There have been at least two Town Board meetings since your last reply.
What decisions have been made?

Thank you and stay well,
Priscilla

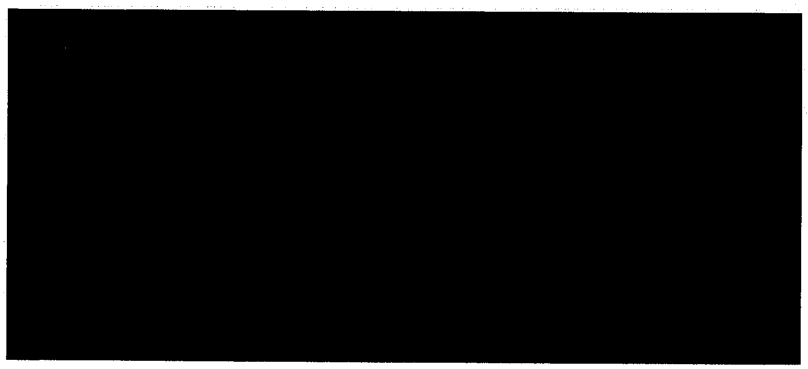
Good Morning Cathy,
I'm in the process of wading through the information provided at this website , notes and all. (Cornell Law)



23 U.S. Code § 131 - Control of outdoor advertising

It obviously is a complicated issue, but why did the owners wait so long, and what was the opinion of the Town Attorney at
the time? Everyone involved was informed over 10 years ago and this law has been on the books for decades, nationally, state
wide and locally.

Thank you
Priscilla

Good Morning,
I did receive an update regarding the signs. Currently, the litigation is on-hold while the parties attempt to work out a settlement. As I understand the issues at hand, because Routes 332 and 5/20 receive federal aid, there is caselaw that states that the amortization method envisioned by the Town at the time the resolution was passed is insufficient to pay the sign owners. I have been told that the sign owners intend to present a proposed settlement at the next town board meeting in February. I would suggest you might like to attend that meeting and, if you are not able to be there, I can forward you any information we receive. I am trying to track down the law the attorneys are referring to but, as I understand it, it is still the current state of the law and the town would likely not prevail. I will continue to look into it and keep you informed. I will forward the law when I am able to track it down.
I hope this has filled you in.
Cathy

Good Morning Cathy,
As indicated in your Jan. 8 email, you suggested that I contact you if I had not received a response concerning Off Site
Commercial Signs by Jan 9th. Alas, no response has been forth coming
Looking forward to hearing from you and thank you,
Priscilla Herbik.

Hello Cathy,

Our last communication concerning off-site commercial speech signs was October 9, 2019.

Where does this issue currently stand?

What is the position of the Town of Canandaigua?

Thank you,
Priscilla Herbik

Hello Pricilla,
The Town is now engaged in litigation in the matter. In sum, the billboard owner has argued that the amortization was insufficient to compensate the owner for the true value of the property and filed suit alleging same, among other claims. I expect we will be getting an update soon on the situation. I will keep you posted as things develop.
Regards,
Cathy

Subject: Off-site Commercial Speech Signs

Good afternoon Cathy,

It is my understanding that during Monday evening's Town Board Meeting an executive session was held to discus pending litigation concerning the removal of Off-site Commercial Speech Signs (Billboards).
What action was taken? What further action will be pursued?

The Town does not allow such signs. Further, the James A.Coon Local Government Technical Series which is available at the NY DOS website, includes Municipal Control of Signs and within Appendix 2: Highway Law Section 88 , Control of Outdoor Advertising the following is stated:

9. Nothing in this section shall be construed to abrogate or affect the provisions of any other statute, lawful ordinance, regulation pursuant there to or resolutions which are more restrictive than the provisions of this section or the agreement ratified and approved by this section.

The above appears to be very relevant..

Please keep me informed.

Thank you.
