Sarah Reynolds reported watching a webinar regarding specifications for the DEC Round 16 Urban and Community Forestry Grant. Discussion of issues involved in fulfilling requirements for an arborist survey and management and maintenance of trees and properties ensued. Sarah noted that only large projects are considered by the selectors. Miller Park has become highly desirable grassland bird habitat, which should be considered should more tree plantings be projected for that location.

Dan Marion compiled a list of desirable trees that will be offered to developers and Town residents. A tri-fold brochure may be formatted for distribution. A list of shrubs will also be offered.

A tree pruning/tree care workshop will be offered to the public and the Ontario Pathways group in October or November.

Several examples of Heritage Tree applications were given for perusal and comment at the next meeting. It was noted that there are presently no zoning requirements or regulations for trees in the Town.
