**Uptown Canandaigua Mixed-Use and Transportation Corridor Feasibility Study**

**RFP**

**PROJECT PURPOSE**
The purpose of this project is to plan for the future of the Uptown region of the Town of Canandaigua as it relates to the transportation and place-making needs, current and future projected, of all users in Uptown Canandaigua.

**BACKGROUND**
Uptown Canandaigua Mixed-Use and Transportation Corridor Feasibility Study will provide a community-centered multimodal transportation plan. This plan will encompass walking, biking, driving, deliveries, community identity and place-making. The project area this study encompasses is approximately 1,400 acres. It extends from the Town’s boundary with the City of Canandaigua at North Street north to Thomas/Emerson Road and from the Airport west of State Route 332 to County Road 28, and North Road to Canandaigua Academy. A map of the Study Area can be found on page 15. This area has been identified in the Town of Canandaigua’s Comprehensive Plan as a growth node for various uses, including residential, commercial and industrial. This includes residential growth for people of all ages, abilities, and income levels; promotion of a sustainable tax base; expansion of the Town’s recreational resources; and, embracing complete streetscapes for all users.

The required outcome of the project is a list of recommendations for improving the multi-modal transportation infrastructure in the study area. The recommendations should include options for improving the walking, biking and transit infrastructure. Particular concern should be given to ensure all recommendations adhere to universal design principles that ensure access by the broadest user groups possible. Recommendations should be prioritized and given rough cost estimates.

The Uptown area in the Town of Canandaigua is one of the fastest growing regions within the Town. Current development and projected trends in this area include multi-family and low-maintenance residential units as well as commercial development. Due to the low-maintenance options, this area tends to attract “empty-nesters” and millennial generation families. The demographics include persons with lower income levels as well as persons who have special housing needs. This area includes nearly one thousand multi-family style dwellings including apartments and townhomes, a regional airport, and the largest private employer in Ontario County. Additionally the area is bisected by a four-lane NY State highway, State Route 332. This State Route is a freight corridor, and freight/truck traffic needs must be considered. The area is home to municipal parks, Canandaigua Academy (which has approximately 1,200 students and 170 faculty and staff), and serves as a destination for pedestrians who currently walk along the roadways.
Additionally, it should be noted that in 2015 a group of students from Sustainability Department of Hobart and William Smith College in Geneva studied this area to assist the Town as a starting point. Those findings are available online at: http://townofcanandaigua.org/documents/large_files/HWS_MULTIMODAL_STUDY.pdf

**PROJECT OVERSIGHT**
The Town of Canandaigua Town Board will have ultimate oversight over this project. The Project Advisory Committee will include individuals from the Citizens Implementation Committee (CIC), New York State DOT, the Ontario County Department of Public Works, Development Office staff, GTC, and the Town Manager.

**SCOPE OF WORK**

1. **Study Coordination**

   The Consultant will coordinate all project activities with the Town Development Office (Planning). A Steering Committee consisting of representatives of the Study Participants identified in Section D. will be convened and meet as necessary to guide this Study. The Consultant will conduct two to four Steering Committee meetings.

2. **Inventory of Existing and Planned Conditions**

   To support the analysis and decision-making necessary to advance this Study, the Consultant will inventory the following:

   a. Existing physical characteristics of the corridor (e.g., design, condition, public and private signage, etc.)
   b. Existing operating conditions of the corridor (e.g., traffic volumes, patterns, level of service, accident data, etc.)
   c. Existing pedestrian and recreational amenities and infrastructure serving the corridor (e.g., sidewalks, trails, crosswalks, benches)
   d. Planned transportation improvements along the corridor (vehicular, pedestrian, and other)
   e. Existing municipal zoning and other regulations as they relate to the corridor
   f. Existing and potential land uses and market trends given present or proposed plans and regulations (including surrounding agricultural uses with a significant bearing on the corridor)
   g. Existing freight movements and how they conflict with other user needs
   h. Other key information as necessary, including relevant anecdotal information, which may materially benefit study decision-making

3. **Needs Assessment**

   To support the analysis and decision-making necessary to advance the Study, the Consultant will identify specific transportation needs, issues, and opportunities related to:
4. Corridor Recommendations

Pursuant to the information developed in the Tasks 2 and 3 and the Study Purpose, the Consultant will:

a. Create a baseline ("do nothing") scenario representing a build-out of the Corridor pursuant to development anticipated with existing zoning and growth patterns
b. Develop alternative strategies to address the needs, issues, and opportunities related to economic development in the Corridor
c. Identify transportation improvements necessary to (1) support the economic development strategies identified in 4.b and (2) maintain the capacity and enhance the safety of the Corridor
d. Identify other actions necessary to support the economic development strategies identified in 4.b. and overall achievement of the Study Purpose (including model land use planning and development guidelines for the Corridor that promote achievement of the Study Purpose)
e. Present alternatives including strategies ("Recommended Alternatives") for development of the Corridor, including the estimated overall cost and sub-component costs of the associated public improvements

In conjunction with Task 4.e. above, the Consultant will conduct a Public Meeting to select the preferred alternative.

5. Follow-On Activities

The follow-on activities necessary to advance the Study recommendations into reality must be identified. Accordingly, the consultant will:

a. Identify specific and achievable follow-on activities and schedules that are needed to advance the findings of this Study, including potential sources of funding to conduct these activities
b. Identify specifically what important factors were not able to be examined within the Study scope/budget and should be addressed through follow-on activity
c. Identify potentially transferable portions of the Study for use elsewhere in the Town of Canandaigua

6. Produce Final Report and Executive Summary
Based on input received from the Steering Committee, the Consultant will make the appropriate revisions and produce the Final Report.

**SCHEDULE**
Provide an implementation schedule based on a timeline that you will be able to deliver the final product.

A contract defining all project terms and conditions and responsibilities of the successful proposer(s) is subject to development, review and approval by the Town Attorney and the Town Board.

Selection of a preferred Consultant will be based upon qualifications and price is excluded as a factor provided the price is within the maximum budget for the project and the proposal provides the “best value” to the Town of Canandaigua.

The evaluation factors are:

1. Experience, Qualifications, and Capacity of the Consultant

The capabilities of each responding firm will be evaluated in these specific areas:

4. Price

Once the Evaluation Team has selected the preferred Consultant, that Consultant’s price proposal will be opened to ensure that proposal does not exceed the maximum available project budget (see Section H). In the event that the preferred Consultant’s price proposal exceeds the maximum available budget, the Evaluation Team will select a new preferred Consultant based on the factors listed above. This process will be repeated until a preferred Consultant whose price proposal does not exceed the maximum available budget is selected.

D. Professional Services Agreement Template

This project is being progressed with federal funds administered by New York State. As such, there are certain requirements and certifications that must be adhered to. The final contract will be developed by the Town of Canandaigua and GTC. A template for GTC’s standard Professionals Services Agreement

E. PROTEST PROCEDURES

1. Pre-Bid Opening Protests. If a bidder can demonstrate that the specifications issued in this RFP are unduly exclusionary and restrictive or that federal, state or local laws or regulations have been violated during the course of the procurement, then the bidder may seek a review by Project Manager Sarah Reynolds (sreynolds@townofcanandaigua.org). Protests shall be clearly identified as Protests and submitted in writing as early as possible but no later than five (5) business days before the proposal due date. Within five (5) business days after receipt of a pre-bid protest, the Project Manager shall make one of the determinations listed in paragraph 4.

2. Post-Bid Opening Protests. A protest to the acceptance or rejection of any or all offers or bids to a contract, or to the award thereof, or to any such action proposed or intended by the Town of Canandaigua must be received in writing by the Project Manager no later than five (5) business days after the protesting party first learned, or reasonably ought to have learned, of the action or the proposed or intended action to which he/she protests. Protest shall be submitted by certified mail addressed to the Project Manager and marked “Protest.”

3. In the event the protestor alleges that the Project Manager or the representative appointed by the Project Manager to serve as Decision-Maker for the particular protest, engaged in improper conduct during the subject procurement, the GTC Executive Director or his appointed representative, at 50 West Main Street, Suite 8112, Rochester, New York 14614 serve as the Decision-Maker. In the event it has been alleged that the GTC Executive Director has engaged in improper conduct during the subject procurement, then the Rochester Genesee Regional Transportation Authority General Counsel shall serve as the Decision-Maker.

4. Rulings on Protests. Within ten (10) business days, the Decision-Maker, or his appointed designee, shall render one of the following determinations:
   a. There are no grounds for protest.
   b. Protest is overruled.
   c. Protest is substantiated. Decision-Maker shall issue instructions to remedy issues relating to the protest.
   d. Procurement activity is suspended until written notification by the Decision-Maker.

The determination shall be in writing and shall provide at a minimum a general response to each
material issue raised in the protest. All documents submitted by the Protestor and/or the Town of Canandaigua staff and/or GTC staff and reviewed by the Decision-Maker in the reaching of a determination shall form and be retained by GTC as the formal record of the dispute resolution process.

The issuance of the foregoing determination is GTC’s final decision of the dispute.

All interested parties shall be notified of any protests that are filed. The Town of Canandaigua shall refrain from awarding a contract within five (5) business days of the date of a decision rendered by the Decision-Maker regarding a protest, unless the Town of Canandaigua and GTC determines that:

a. The items to be procured are urgently required.
b. Delivery or performance will be unduly delayed by failure to make a prompt award.
c. Failure to make a prompt award will otherwise cause undue harm to the Town of Canandaigua or GTC or the federal government.

5. Protestor’s Appeal to Federal or State Agencies. In the event that the Town of Canandaigua fails to abide by the protest procedures set forth above, then the protestor may seek a review by the appropriate funding agency. Protestors shall file such a protest in accordance with the requirements set forth below, not later than five (5) business days after a final decision is rendered under the Town of Canandaigua’s protest procedure. In instances where the protestor alleges that the Town of Canandaigua failed to make a final determination on the protest, protestors shall file a protest with the appropriate agency not later than five (5) business days after the protestor knew or should have known of the Town of Canandaigua’s failure to render a final determination on the protest.

6. Submission of Protest to FHWA. Protestors shall file such a protest filing in accordance with the procedures set by FHWA. GTC will provide all information that is necessary to file a protest with FHWA upon request.

Nevertheless, the plans, specifications and other documents prepared under this Agreement shall become the property of Municipality upon completion of the work and payment in full of all monies due to Contractor. Municipality shall not reuse or make any modification to the plans and specifications without the prior written authorization of Contractor. Municipality agrees, to the fullest extent permitted by law, to indemnify and hold Contractor harmless from any claim, liability or cost (including reasonable attorneys’ fees and defense costs) arising or allegedly arising out of any unauthorized reuse or modification of the construction documents by Municipality or any person or entity that acquires or obtains the plans and specifications from or through Municipality without the written authorization of Contractor.

27. **Notices:** Any notice or demand upon Municipality or Contractor shall be deemed to be sufficient for all purposes hereunder if given personally or mailed to the other party hereto at such party’s address as set forth above or to such other address as may be furnished in writing by such party. (2) Contractor agrees to include the above clause in each subcontract financed in whole or in part with FTA assistance. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

Termination
Applicability – All Contracts over $10,000, except contracts with nonprofit organizations and institutions of higher learning, where the threshold is $150,000

a. Termination for Convenience (General Provision) the recipient may terminate this contract, in whole or in part, at any time by written notice to contractor when it is in the recipient’s best interest. Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient. If contractor is in possession of any of the recipient’s property, contractor shall account for same, and dispose of it as the recipient directs.

b. Termination for Default [Breach or Cause] (General Provision) If contractor does not deliver items in accordance with the contract delivery schedule, or, if the contract is for services, and contractor fails to perform in the manner called for in the contract, or if contractor fails to comply with any other provisions of the contract, the recipient may terminate this contract for default. Termination shall be effected by serving a notice of termination to contractor setting forth the manner in which contractor is in default. Contractor shall only be paid the contract price for supplies delivered and accepted, or for services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the recipient that contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of contractor, the recipient, after
setting up a new delivery or performance schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) the recipient in its sole discretion may, in the case of a termination for breach or default, allow contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination shall state the time period in which cure is permitted and other appropriate conditions. If contractor fails to remedy to the recipient's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by contractor or written notice from the recipient setting forth the nature of said breach or default, the recipient shall have the right to terminate the Contract without any further obligation to contractor. Any such termination for default shall not in any way operate to preclude the recipient from also pursuing all available remedies against contractor and its sureties for said breach or default.

d. Waiver of Remedies for any Breach In the event that the recipient elects to waive its remedies for any breach by contractor of any covenant, term or condition of this Contract, such waiver by the recipient shall not limit its remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

e. Termination for Convenience (Professional or Transit Service Contracts) the recipient, by written notice, may terminate this contract, in whole or in part, when it is in the recipient's interest. If the contract is terminated, the recipient shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

f. Termination for Default (Supplies and Service) If contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. Contractor shall only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract. If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

g. Termination for Default (Transportation Services) If contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. Contractor shall only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract. If this contract is terminated while contractor has possession of the recipient goods, contractor shall, as directed by the recipient, protect and preserve the goods until surrendered to the recipient or its agent. Contractor and the recipient shall agree on payment for the preservation and protection of goods. Failure to agree on an amount shall be resolved under the Dispute clause. If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

h. Termination for Default (Construction) If contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified, or any extension, or fails to complete the work within this time, or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. the recipient may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. Contractor and its sureties shall be liable for any damage to the recipient resulting from contractor's refusal or failure to complete the work within specified time, whether or not contractor's right to
proceed with the work is terminated. This liability includes any increased costs incurred by the recipient in completing the work.

Contractor's right to proceed shall not be terminated nor shall contractor be charged with damages under this clause if:

1. Delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of contractor. Examples of such causes include: acts of God, acts of the recipient, acts of another contractor in the performance of a contract with the recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. Contractor, within 10 days from the beginning of any delay, notifies the recipient in writing of the causes of delay. If in the recipient's judgment, delay is excusable, the time for completing the work shall be extended. The recipient's judgment shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of contractor's right to proceed, it is determined that contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if termination had been issued for the recipient's convenience.

i. Termination for Convenience or Default (Architect & Engineering) the recipient may terminate this contract in whole or in part, for the recipient's convenience or because of contractor's failure to fulfill contract obligations. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature, extent, and effective date of termination. Upon receipt of the notice, contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the recipient all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. If termination is for the recipient's convenience, it shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If termination is for contractor's failure to fulfill contract obligations, the recipient may complete the work by contact or otherwise and contractor shall be liable for any additional cost incurred by the recipient.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient’s convenience.

j. Termination for Convenience or Default (Cost-Type Contracts) the recipient may terminate this contract, or any portion of it, by serving a notice or termination on contractor. The notice shall state whether termination is for convenience of the recipient or for default of contractor. If termination is for default, the notice shall state the manner in which contractor has failed to perform the requirements of the contract. Contractor shall account for any property in its possession paid for from funds received from the recipient, or property supplied to contractor by the recipient. If termination is for default, the recipient may fix the fee, if the contract provides for a fee, to be paid to contractor in proportion to the value, if any, of work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient and the parties shall negotiate the termination settlement to be paid to contractor. If termination is for the recipient's convenience, contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, the recipient determines that contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of contractor, the recipient, after setting up a new work schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.
